

Office of Solid Waste and Emergency Response (OSWER) Contracting

Contractor Forum

October 24, 2002

Office of Solid Waste and Emergency Response (OSWER)

- OSWER's mission is to protect public health and the environment from the risks of toxic waste and chemical accidents.
- Our largest program is the Superfund program, which is responsible for the cleanup of the nation's hazardous waste sites. Historically, Superfund contracting has comprised over half of the Agency contract dollars.
- A number of other OSWER offices have contracts, including the Office of Solid Waste, which is responsible for national management of hazardous and non-hazardous waste under the authority of the Resource Conservation and Recovery Act (RCRA).

National Superfund Program Contracts

- Superfund contracts have been awarded under the Contracts 2000 Strategy which planned for procuring Superfund contracts for the years 2000 and beyond.
- 76 contracts have been awarded under the Contracts 2000 Strategy (excluding CLP and replacement contracts for Response Action Contracts (RACs)).
- There is a Phase II Design/Construction workgroup that is working on replacement contracts for RACs. Region 10 plans to procure one large business and one small business RAC contract. The target award date is currently anticipated for 4th quarter 2003.

Major Superfund Contracts

Contract Type	Contract Name	Comments
Removal Action	Emergency and Rapid Response Services (ERRS)	Staggered awards
Removal & Remedial On-Site Technical Services	Response Engineering and Analytical Contract (REAC)	Current contracts expire 2004

Enforcement	Enforcement Support Services (ESS)	Current contracts expire 2004
Analytical Services	Contract Laboratory Program (CLP)	Staggered awards
	Environmental Services Assistance Team (ESAT)	Current contracts expire 2006

Remedial Response	Response Action Contracts (RACs)	Region 10 RAC 2003 award
Federal Facilities Oversight Support	Regional Oversight Contracts (ROCs)	Current contracts expire 2005
Headquarters Mission Support	Management and Technical Analytical Support Services	Check forecast

Total Number of Contracts Awarded

Other OSWER HQ Offices' Contracts

OFFICE OF SOLID WASTE

Mission: To protect human health and the environment by ensuring responsible national management of hazardous and non-hazardous waste.

OSW has nine contracts, including one Small Business and one 8(a) contract.

Contracts range from \$3 million for a three year contract to \$15 million for some of the five year contracts.

Examples of contractor services include:

- risk assessment support,
- modeling support, and
- outreach and support for the development and implementation of the Resource Conservation and Recovery Act (RCRA) permitting and corrective action regulations and guidance.

OFFICE OF SOLID WASTE (cont'd)

In FY 2003, OSW plans to replace three contracts:

- Hazardous and Solid Waste Modeling Support Contract - an 8(a) set-aside is planned.
- RCRA Subtitle C and D Support Contract - Small Business set-aside is planned.
- Risk Assessment Support Contract.

CHEMICAL EMERGENCY PREPAREDNESS AND PREVENTION OFFICE (CEPPO)

CEPPO has two contracts, including an 8(a) contract:

- Analytical and Technical Support Contract for EPA's National Security Emergency Preparedness Program – a new 8(a) will be awarded shortly.
- Analytical and Technical Support Contract (expires 2007).

TECHNOLOGY INNOVATION OFFICE (TIO)

TIO has two contracts, including a Small Business:

- Technology Transfer and Training Contract (expires 2007).
- OSWER Mission Support Contract - a Small Business set-aside will be procured in 2003.

OFFICE OF UNDERGROUND STORAGE TANKS (OUST)

OUST has two contracts, including an 8(a) with an Alaskan Native Corporation:

- Program and Technical Support Contract for the Underground Storage Tank/Leaking Underground Storage Tank Program (expires 2004).
- Remediation of Leaking Underground Storage Tanks in Indian Country Contract (8(a) contract expires 2006).

OFFICE OF BROWNFIELDS CLEANUP AND REDEVELOPMENT (OBCR)

OBCR has two contracts, including one Small Business:

- Brownfields Analytical and Technical Support Contract (expires 2006).
- Brownfields Technical Support Contract (Small Business contract expires 2007).
